Announcement! Roger's "Take the Long Way Home, Live in Montreal DVD" will be released in Blu-ray format with additional bonus footage!

We'd like the bonus DVD to include everyone's favorite videos from concerts, interview, special moments, etc. We've seen a lot of unofficial fan favorite videos out there, so we are collecting the very best- the ones you love the most, to include in the bonus.

Let us know which interviews, as well as which songs, you would like to see on the new **"Take the Long Way Home" DVD/Blu-ray**

We need to compile everything this week, so please send us your videos both by email and by mail, if possible, in the next few days. You could also upload them on YouTube with a private link so that only we can view them.

Ideally the footage should be recorded in High Def, though if you have something wonderful that is not HD, you can send that too. For anything you send, please tell us if you have the original recording, if it was filmed in HD, and what format it is in.

You can mail physical DVD's, tapes, etc to the address below in Belgium.
